

The EVRC board has been reviewing how we can best develop and support the community. We (EVRC) has conducted and concluded a thorough recruitment process resourcing a local HR firm with strong links to Elbow Valley. We are pleased to announce the new hire of Autumn El Dewary as our Administration Manager and Derek Kozina as our Operations Manager. We look forward to working with them to provide Elbow Valley with the highest level of service for our community.

They will start next week, which will allow a handover period from our third-party management company. The Residents Clubhouse remains closed, but we will create opportunities for you to meet our new team virtually.

We are pleased to have been able to recruit two very personable and experienced employees to help us make adjustments to process and further enhance and build the community.
